

CV(English)

CHOI JUN HYEOK

Student in Korea University

About Me

I am an engineer who wants to solve fundamental problems in the world and improve people's life through technology. Interested in various fields of Computer Science and Applied Math including AI, Robotics, Network and Cryptography, I hope to stand in the frontline of technological innovation

Education

Korea University, Seoul

Mar 2022 ~
Present

B.S. in Cyber Defense

- GPA 4.06/4.5
- Full-funded Scholarship, 2022 ~ 2026

▼ Club

▼ Alkor(Algorithm Problem Solving Club)

- Vice President in 2024
- Seminar Instructor
- Admin of KCPC(Korea Univ. Collegiate Programming Competition)

• MatKor(Math Club)

• LECA(Language Exchange Communication Association)

▼ FC 싸축(Football Club)

- Captain in 2023

- TIGRIS(Amateur Ice Hockey Club)

Hana Academy Seoul

Mar 2019 ~ Feb
2022

Graduated

▼ Club:

- Serendipity(Engineering Club)
- ▼ Lambda(Programming Club)
 - Vice President in 2020
- 하나 FC(Football Club)

Extra Academic Activity

FHE School(Homomorphic Encryption Research Program),
Seoul National University x CRYPTOLAB

Apr 2024 ~
Present

Participant

Qiskit Fall Fest(Quantum Computing workshops and
challenges), IBM

Nov 2023

Participant

**International Olympiad in Informatics(IOI) Summer
School**, Korean Institute of Information Scientists and
Engineers

Jul 2019 ~ Aug
2019

Trainee

Work Experience

Software Engineer (Intern)

Hyundai MOBIS, Seoul

July 2024 ~ Aug
2024

- Electronic Devices BU | OTA

▼ Developed OTA Update Solution

- Developed Differential System Generator/Update Algorithm
- Developed Update Service Middleware
- Developed Download Protocol

Licenses & Certifications

- **Craftsman Information Processing**, HRD Korea

Honors & Awards

Competition

2024 **ICPC Asia Pacific Championship 31th Place - Team SIGSEGV**, ICPC Foundation

2023 **Cryptoanalysis Contest Grand Prize from Minister of National Defense - Team 암호르파티**, Ministry of National Defense
